## Y-12 Safety Is Sad Story So Far For 1961

**Supt. Jordan Alarmed At Rise In Mishaps**

Alarmed by the recent disabling injuries occurring, Y-12 Superintendent R. G. Jordan issued the following statement last week:

"Since January 1 of this year seven disabling injuries have occurred in our plant. Two of these disabling injuries, both of which could have been prevented had the employees been following safe work practices, occurred this week.

"In 1960 we proved that Y-12 could be operated without the occurrence of this type of injury. This highly desired safety attitude and record seems to have been reversed in the last three months. Unless immediate positive action is taken, our plant will end the calendar year with many injured personnel as well as a low statistical rating.

"Our 1961 accident and injury experience is considerably below desired standards. We must all assume our full responsibility for safe working conditions by taking positive steps to reestablish effective accident preventive measures."

### Ninth Accident Occurs

Since Supt. Jordan's statement was issued, two more lost-time accidents have been recorded in Y-12, the eighth and ninth of the year. This is almost twice the number of accidents occurring all of last year.

The need for safety is not enough. A. H. Motley, president of the U.S. Chamber of Commerce, stated in a recent address, "Americans must develop a sense of safety similar to their sense of sight, hearing, smell, taste and touch if they are to remain alive. The fact that we need safety is not enough. We have to want it badly enough to do something about it. Deep unconscious motivations have a lot to do with people's behavior. In the home our youngsters have to be taught right from the cradle that safety is a way of life."

### Safety A Trained Reflex

Since safety is a trained reflex, our subconscious minds must be adapted to work safely automatically. That is, Y-12ers must think while at work. Nobody hurts himself intentionally, but it is that thoughtless moment when we are off-guard that an accident may happen.

Howard Pyle, president of the National Safety Councils sums it up, "Safety is a positive force, making its contribution to good living, respect for law and order, and good government the world over."

### Y-12 Can Do Better

Y-12ers have proved they can work safely. Safe working conditions are not mere statistics either. While it all looks good on paper, and gets Y-12's name in the paper often, a good safety record means good working conditions, free from painful injury and lost-time. Let's get back in harness and make last year's outstanding record of safe operations standard procedure, not a record to look back on!

Paul E. Woody

## Y-12ers' Attendance Record Is Perfect

**10th Anniversary Seen Without A Missed Day**

April is a big month for Paul E. Woody, in Y-12's General Machine Shop! The sheetmetal worker not only celebrated his fourteenth wedding anniversary this month, but enjoys his tenth anniversary in the Y-12 Plant. There are 23 other Y-12ers celebrating ten years of Continuous Service this week, but Woody's case is extra special. . . He celebrates ten years of perfect attendance.

The young metal worker came to work in Y-12 after a varied career with the Aluminum Company of America, Alcoa, Tenn., where he worked from 1937 until 1944. After a short stint in the United States Navy, he came to the plant with Tennessee Eastman Corp. After serving a short time here, he returned to Maryville and drove a taxi there from 1945 until 1951, when he returned to Y-12.

Woody married the former Ruth Ernestine Murphy April 16, 1947. The Woodys have five children, Paul E., Jr., 12; Patricia, 10; Gale, 9; Linda Kay, 6; and Patricia Ann, only six weeks old. They live at 122 Pine St., Maryville.

For his spare time, Woody says he works around the house and yard, tinkering with his car occasionally. He states that most of the credit for the one hundred percent good attendance record goes to his good health.

So Y-12 takes off its collective hat to Woody for ten years of service, ten years of employment without missing a day on the job!

### NOTHING NEW ABOUT ELVIS

The use of combs for dressing the hair has been traced back as far as recorded history goes for man, civilized or not.

## SAFETY SCOREBOARD

The Y-12 Plant Has Operated Six Days Or 183,000 Man-Hours (Unofficial Estimate) Without A Disabling Injury Through April 23 Phone 7755 For Daily Report On Accident-Free Hours

## Big Spring Dance Set For Friday May 12 . . . 'Dixielanders' Back For Seventh Straight Shindig

**Tickets Available At 16 Points In Y-12 Plant**

The big Spring event for Y-12ers is up-coming in the Spring Dance, held traditionally at this time every year. The gala event is set for Friday, May 12, in the ballroom of the Oak Terrace, Oak Ridge, with dancing from 9 pm until 1 am.

The Dixielanders are scheduled again to fill the big room with music for all tastes. Papa John Gordy, leader of the outfit, died early in this year, but the band is carrying on in the same tradition. New leader of the orchestra is Bob Lamm, trumpeter, who promises "Good Night Irene, Good night, Irene," along with popular favorites of today and other days. From tangos, cha-chas, and dreamy waltzes, Y-12ers have run the gamut with the traditions set forth by the popular Dixielanders.

### Tickets Available

Available tickets now are on sale at various points in Y-12. The usual price of \$1.50 per ticket prevails. The following Y-12ers have tickets at the buildings specified:

Wanda Livesay, Bldg. 9212.  
Liz Harris, Bldg. 9212.  
Betty Whitehorn, Bldg. 9202.  
Virginia Boswell, Bldg. 9704-2.  
Mildred Kidwell, Bldg. 9704-2.  
Ann Rackley, Bldg. 9704-2.  
Verna Peckman, Cafeteria, Bldg. 9711-5.  
Mavis Koons, Bldg. 9706-2.  
J. P. Smith, Bldg. 9723-11A.  
Charlie Gillihan, Bldg. 9706-1A.  
T. R. Rucker, Bldg. 9201-4.  
Peggy Scott, Bldg. 9739.  
Kathleen Milligan, Bldg. 9201-1.  
Jackie Ward, Bldg. 9764.  
Mildred Morris, Bldg. 9204-4.  
Fran Willie, Bldg. 9201-5.

To those Y-12ers who complained about the sardine-like conditions of the Christmas dance comes the comforting word from the Recreation Department that the Spring dance is by custom less-crowded than the Christmas get-together.

### Stag Or Drag

The twice-a-year affair affords Y-12ers the opportunity to meet dates and mates of fellow employees. Coming either stag or drag, individuals always leave with pleasant memories of the events.

As usual there are no table reservations. Tables go on a "first come-first served" basis.

### Door Prizes Offered

This will be the seventh consecutive dance that the Dixielanders have entertained Y-12ers.

Continued on Page 4

THE DIXIELANDERS ARE COMING BACK for the big Spring Dance planned for Friday, May 12 at the Oak Terrace Ballroom, Oak Ridge. The Y-12 event, always one of the social highlights of the spring season, brings back the traditional Dixielanders, even though the leader "Papa John" Gordy died earlier this year.

## 'Spring Clean-Up' In Full Swing In Y-12; Coordinators Busy With Annual Spruce-Up

**Every Division Represented In Efforts To Make Plant A Brighter, Safer Place**

Work was progressing nicely in Spring Clean-Up Week activities around the plant, according to divisional coordinators assigned to supervise the action in each individual division. At the mid-point this week, it was stressed again that an all-out effort must be made by every Y-12er to accomplish the job to be done.

## "Operation Alert" Is Scheduled In Plant

**No Evacuation Planned On Practice Air Raid**

"Operation Alert, 1961" is scheduled for the Y-12 Plant Friday April 28, through April 29. The Yellow Alert will sound at 1 pm Friday. This alert is a three-minute blast on the sirens located in the Y-12 plant. Friday and Saturday are considered "attack days" by the planners of the nationwide alert practice.

Although the yellow alert is an evacuation signal, Y-12ers will not evacuate the plant. All supervisory personnel are urged to review the plan of evacuation with employees during this period, however. The Air Attack Plan is outlined in Part II-E, in the Y-12 Emergency Manual.

The Atomic Energy Commission will receive the alert from the National Warning System, and will, in turn, notify the shift superintendents that a "raid" is imminent.

A red alert warning will follow the yellow alert Friday. Red alerts mean immediate danger, and for this signal any nearby shelter may be sought. Since this is only a practice-alert, no action is required of Y-12 employees. In case of real danger, Y-12ers are scheduled still to evacuate to Crossville.

Inspections were in progress in every department and office. Recommendations were also being made to correct hazards as they were observed.

The campaign is set for this week April 23 and will extend through Saturday, April 29.

While the stress is being put on emphasizing cleaning up Y-12, every Y-12er is also urged by his community to also help clean up around home. Various communities in this locale are offering special pick-ups for refuse and junk put on the streets.

The following coordinators and their divisions are working with department heads and the Fire Department to see that the operation is as smooth as possible: Charles C. Niemeier, Maintenance Division; Jack Garland, Finance and Materials; H. T. Greene, Chemical Operations; J. H. Sims, Engineering; B. I. V. Bailey, Industrial Relations; Don E. Bell, Shift Superintendents and Utilities; C. V. Jenner, Technical Division; Fran M. Tench and William A. Pfeiler, Development Division; Spears Vavalides, Mechanical Operations; J. R. Lund, Oak Ridge National Laboratory coordinator; Howard Hicks, ORNL's Biology; E. M. Lee, ORNL's Re-

Continued on Page 4

The Circle Theatre, seen on WBIR-TV, Channel 10 tonight at 10, will present the first dramatization of fall-out shelters ever shown on television. The unusual program under the guidance of Civil Defense will also include an address from the director of the organization. The hour-long program is entitled "Briefing Room 103."

A NAVY SCIENCE cruise award is presented Douglas J. Little, son of J. C. Little, Engineering Division, by Lt. Commander Harry C. Francke, USNR. Francke is a member of the City Council in Oak Ridge and is in Y-12's Chemical Engineering Development Department.

## Science Fair Honors Go To Y-12er's Son

Among the top winners of the Ninth Annual Southern Appalachian Science Fair held recently at the University of Tennessee was Douglas J. Little, son of Mr. and Mrs. J. C. Little, Knoxville. His father is in Y-12's Engineering Division.

Young Little was third place winner in the senior division with his project entitled "Luminous Reflectance and Transmittance," for which he received a five-day Navy cruise and \$30 to cover his expenses while on the cruise.

The project entered by Douglas consisted of constructing a device which measured, by photo-electric means, either the percent light reflectance, or the percent light transmittance of test samples of paint color chips, interior plywood, translucent Plexiglas, and laminated plastic samples of numerous shades and colors.

Doug is a sophomore at West High School in Knoxville. His older brother, Jim, Jr. won a similar award two years ago.

Exhibited with the test equipment were a three-panelled project board which explained the project and results in detail, the magnesium oxide standard, the project data book, the entire 300 test samples with test results, and reference books.

## Local AEC Offices Go On New Time Schedule May 1

Beginning Monday, May 1, employees of the Atomic Energy Commission in Oak Ridge will observe working hours between 7:45 a.m. until 4:30 p.m., with the advent of Daylight Saving Time in Washington, D. C.

During the winter, normal working hours are from 8:15 a.m. to 5 p.m. Each spring, however, the Oak Ridge workday is changed for the duration of DST in Washington to bring the local AEC working hours into closer conformity with those of the Washington offices.

## RENEAU-HUFFINE

Mr. and Mrs. B. E. Reneau, 247 Highland Ave., Oak Ridge, announce the engagement of their daughter Jean Carolyn Reneau to Thomas Howard Huffine. The bride-to-be's father is in Y-12's Area Five Maintenance, and the prospective groom is the son of Mr. and Mrs. Arvine Huffine, Route 2, Kingston.

The bride-elect is a graduate of Oak Ridge High School, and is currently employed as a secretary at Calvary Baptist Church, Oak Ridge. Mr. Huffine is a graduate of Roane County High School and is presently employed in Kingston.

A June wedding is planned.

## BRYSON-BABB

Of special interest to Y-12ers will be the June 30th wedding of Miss Linda Bryson to Ralph Gerald Babb. Both fathers of the couple are Y-12ers, along with the prospective groom.

Miss Bryson is the daughter of Mr. and Mrs. W. T. Bryson, Route No. 18, Knoxville; her father being employed in Area Five Maintenance. She is a graduate of Karns High School.

Young Babb, better known in Y-12 as Jerry, is a graduate of Oak Ridge High School and is in the Z Area and Dispatching. His parents, Mr. and Mrs. Harold W. Babb live at Rt. 17, Knoxville. The father is in Production Control.

The late June wedding will take place at the Ball Camp Baptist Church.

Get well wishes are sent the following Y-12 employees who were patients last week in the Oak Ridge Hospital:

Harold H. Bright, Sunflower Shop; Sam Kesterson, Guards; George McNamee, Cafeteria; W. F. Fairbanks, Sunflower Foundry; W. W. Watt, Z Area and Dispatching; J. D. Shelton, Product Quality Acceptance; Horace G. Crouch, Utilities; T. S. Henley, Engineering Records; George Edmonds, Mechanical Maintenance.

## Ridge Playhouse Group Sets 'Bus Stop' Opening Night

The hilarious all-night diner love story "Bus Stop," by William Inge is the Oak Ridge Playhouse's current production opening tomorrow night, Thursday, April 27 at 8:20 p.m. The play was a tremendous hit during the 1955 New York season and was made into a hit movie in 1956, starring Marilyn Monroe.

The play will be presented Friday and Saturday also, April 28, 29, and will run the following week-end, May 4, 5, and 6.

## Ridger 43ers Will Present Skit Depicting 'Old Days'

Y-12ers who lived and/or worked in Oak Ridge during 1943 are invited to attend the 43 Club's spring meeting to be held Friday, April 28, at the Alexander Hotel, Oak Ridge. A Dutch treat dinner will be held at 6:30 pm and the meeting will get underway at 8.

A "mellerdrammer" will be presented depicting the "old days in the Ridge." Major A. K. Bissell of the SS Control Dept., and his wife have leading roles in the skit, which is under the direction

Miss Carolyn Reneau

Miss Linda Sue Bryson

Ride wanted from Beacon Hall, Oak Ridge, to North Portal, straight day. Elizabeth Wilson, plant phone 7103, home phone Oak Ridge 482-1948.

Ride wanted or will join car pool from Jefferson Ave. vicinity, Oak Ridge, to Central Portal, Straight Day. E. H. Prosise, plant phone 7349, home phone Oak Ridge 483-5281.

One rider wanted from Riverside Dr. section, Clinton, to North Portal, straight day. L. C. Bell, plant phone 7784, home phone Clinton 1511-J.

Riders wanted from Powell section to East Portal, straight day. W. H. Donahue, plant phone 7411, home phone Powell 947-7021.

Ride wanted from corner of LaSalle and Robertsville Rd., Oak Ridge, to Central Portal, straight day. Helen Cunningham, plant phone 7213, home phone Oak Ridge 483-5756.

Car pool members wanted from Cumberland Estates section, Knoxville, to any portal, straight day. Tom Hardin, plant phone 7308, home phone Knoxville 588-7608.

Car pool members wanted from Inskip, Norwood Section, Knoxville section, to Central, West or Bear Creek Portals, straight day. H. E. Neeley, plant phone 7-8835, home phone Knoxville 687-5489.

Ride wanted from 830 Vermont Ave., Knoxville, to West or Central Portal, straight day. J. G. Yearwood, plant phone 7627, home phone Knoxville 522-1810.

of Grace Cobb, Oak Ridge National Laboratory employee in Y-12.

Eligibility in the organization hinges solely on the whether or not one happened to be in this neck of the woods at the time of the birth of the big city.

During the war a Tennessee G.I. was playing poker in England. The Englishman drew a good card. "One pound," he said.

"Ah don't know how you'n's count money hyar," replied the Tennessean, "but ah'll raise you a ton."

So let's raise our "pound" head and gather a "ton" of news from around—

## FINANCE AND MATERIALS

Plant Records records that Dot Connor plans to attend the Eastern Star Convention in Chattanooga next week...

Wayne Silver of Engineering Records is vacationing this week absorbing the warm sunshine around Pensacola, Fla. . . .

Property 'lows that Clifford Anderson and family recently moved from Maryville to Clinton...

From the Mail Room it's learned that Joyce Gillihan and Charlie (of SS Control) spent the week-end in Chattanooga where they attended the Credit Union Convention... S. P. Eubanks is vacationing at home and hopes to get caught up on his spring fishing... get well soon wishes are sent to Cecil Smith, home ill...

From Timekeeping comes the wallet-digging pride from the Bill Moles household in the personages of little Rocky, three and one-half years old and Missy, only ten months old... the Moles live on Robin Lane in Oak Ridge... and are rightly proud of the lively nestlings shown below.

Rocky and Missy Moles

Drive-in banks were established so that cars could see their real owners.

## INDUSTRIAL RELATIONS

The Cafeteria conveys its best wishes to George McNamee confined in the Oak Ridge Hospital with a stomach ailment...

The Fire and Guard Department sends best wishes for a speedy recovery to Guard L. A. Litton's wife in Presbyterian Hospital... Litton himself is recovering from heart surgery he had earlier in the year... The Freres Kendrick, Mont of Security, and E. J., Fire Department, vacationed last week in their respective abodes in Powell...

In the days when a woodshed stood behind the typical American home, a great deal of what now passes for juvenile delinquency was settled out of court.

## TECHNICAL

The birthday girls in Special Projects are having a rough time these days keeping up with their baking... they report many, many in April, and more coming up for May... Jim Dodson was the latest recipient of the goodies to go with his coffee.

From Production Analysis comes a stork special—making a first stop at the home of the

Morgan Carter

Morgan H. Carters... they live at Valley View Heights, just across the new Edgemoor Bridge... a fine seven pounds and one and one-half ounce boy arrived at the Oak Ridge Hospital March 30, named Morgan Scott... mother and baby are home now, and naturally "pop" is crowing all over the place...

A sense of humor is what makes you laugh at something which would make you mad if it happened to you.

## MAINTENANCE

Research Services sends along word that D. L. Craig and C. R. Kerr are both ill in the hospital, and happy thoughts are beamed their ways... and Alice Boxley reported in from Bermuda with flu... C. W. Mason's wife is also ill... and best wishes to her...

From Area Five Maintenance it is maintained that the welcome mat is rolled out for C. H. Curtis, in from ORGDP... and E. K. Cottingham, transferred in from Engineering...

Boss: That's a beautiful diamond. Anyone I know?

Secretary: No. When Grandma died, she left \$1,000 for a stone in her memory. This is it.

## CHEMICAL OPERATIONS

From Product Processing is heard that Bill Leinart is the latest addition to the proud papa parade... a girl was born to the Leinarts April 15, in Oak Ridge Hospital, named Valerie Patrice, weight ten pounds, 2 ounces... Get well wishes are speeded to J. C. Parker's wife.

It's vacations from Uranium Recovery... H. S. Lane vacationing in Clinton doing what nobody seemed to know... Tom Reed is off, of course, getting acquainted with his new daughter... Joe Bridges is spending his time painting and farming, and plans to take his horse to Chattanooga for the Horse Show... and M. C. Asbury also off to Chattanooga for the convention of the Grand Chapter of the Order of Eastern Star.

The human body is an extremely sensitive mechanism. Pat a man on the back and his head swells.

## ENGINEERING

Winging up from Mechanical Engineering comes the news that Lillian Higgins also attended the Eastern Star convention in Chattanooga, as part of her vacation... Kurt Delcour sunk his nine foot yacht recently, and has now taken up the fine art of go-carting... Dave DeWalt's family reported a new baby girl last week, but no details... also Freddie Jefferies passed out the cigars April 18, when his son arrived, Mark Allen, seven pounder, at the Oak Ridge Hospital... and best wishes are speeded to C. P. Chishaz's daughter, ill in Children's Hospital... The boys all got together last Saturday night to help Spence Ferguson say farewell to his bachelor days... he's getting married this week, more details on this later... and from down

Mark Hardin

thataway comes this fine photo of a strappin' boy... a real triple - threat as far as Y-12 is concerned... not only are both parents working here, but the maternal grandfather is present also... the parents are Peggy Hardin, of the ME's, Fred the pa is in Chemical... and the even prouder grandpop is Arthur G. Cowan, Guards. The three are all trying to out-brag each other and you can't blame

Continued on Page 4

## Big Five Take Roll-Off In C League Play

The Big Five took the Alley Cats in the final roll-off of the C League for Y-12 bowlers last week by 86 pins. Thus, the Big Five are finalist champs in the league and faced another roll-off Monday, April 24 with the IBMs, winners of the first half of league play.

Total pins knocked by the Big Five tallied to 2813, while the Alley Cats dropped 2727. C. J. Beckett, Alley Cats, was top man of the event with a 231 single scratch game.

The champs will be announced with pictures in next week's Bulletin.

## Holzknicht Has Top Scratch In Tourney

Verification of scores of the All Carbide Bowling Tournament, held the week-end of April 15, 16,

Jay Holzknicht

altered the results slightly in the singles events. Jay Holzknicht became champion scratch scorer in the tournament with a 639. Holzknicht rolled regularly on the Rippers team in the Classic League play. This high scratch scoring also boosted him to second place in handicap scoring with a 684.

Other Y-12 winners included Lettie Ault and Georgia Rader, with 1222, in handicap scoring on the female side of the house. Georgia also placed high in all events play with a 1778.

In men's singles other high scores were rolled by Arnold Tiller and Ron Taylor.

## Harriman League Is First In Tee-Off

Three twosomes began the Harriman Carbide Golf League in grand fashion the week of April 10 by clobbering their opponents for the full four points. The Hamill-Thomas pair took four from the Isham-Crass two; True-Lynn over Franzreb-Ellis; and Brown-Buttram-Brown over Willmarth-Scalf.

The Cuneo-Grimes duet clipped the Henck-Evans team by three and one-half points, as did the Creswell-Winters pair over the O'Keefe-Pickel two.

Low scratch score of 39 was scored by Benny Crass, and league secretary Hobey Thomas took low net score with a 35.

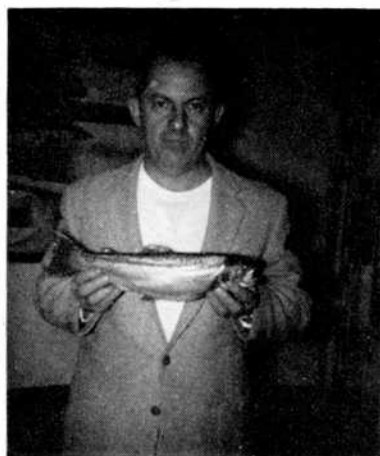

Initial league standing follows:

Team	W	L
Hamill-Thomas	4	0
True-Lynn	4	0
Brown-Buttram	4	0
Creswell-Winters	3½	½
Cuneo-Grimes	3½	½
Pickel-O'Keefe	½	3½
Henck-Evans	½	3½
Isham-Crass	0	4
Ellis-Franzreb	0	4
Willmarth-Scalf	0	4

## Ocoee Waters Are Opening Sunday

All streams on the Ocoee Wildlife Management Area will open to fishing April 29, and fishing will be permitted on Saturdays, Sundays and national legal holidays through July 9, 1961. Joel Biggs, manager, said the area streams are well stocked with ten to twelve-inch rainbow trout and that biweekly stocking would continue throughout the season.

Rough Creek, a preferred stream of the select fishermen, will again be open and Manager

**THE RAINBOWS** are biting more and more in the Norris waters, as proven by W. T. Mitchell, Research Services. This nice trout took a red worm recently and Mitchell's mighty reel did the rest. A fierce fight ensued, but naturally the trout lost.

## Norris Trout Are Increasing

Survey Shows Fish Doing Well In Lake

Norris Lake, the first of the Tennessee Valley Authority impoundments and long noted for its fine bass and pike fishing, may soon join the list of Tennessee's trout lakes, according to Price Wilkins, Supervisor of coldwater fisheries for the Game and Fish Commission. As a result of investigations made by both the TVA and the Game and Fish Commission the possibility that Norris could be utilized as a trout fishery without interfering with the present warmwater species became evident.

Wilkins said that introduction of trout into the reservoir began in 1959 with the placement of some 25,000 three to four inch fingerling trout. To supplement this initial planting 100,000 fertile rainbow trout eggs were flown in from the State of Washington and planted in White's Creek, a small tributary of the lake. The plant of eggs resulted in a successful hatch of approximately 95,000 small trout. Large numbers of these fish found their way into the lake. Mr. Wilkins stated that the following year (1960) the same method of trout introduction was again made with the planting of 25,000 fingerling fish and 50,000 eggs. The third introduction, completed this spring included another 50,000 eggs and 25,000 fish, but the last stocking consisted of trout from fingerling size to seven inch fish.

In a population check of White's Creek, completed in June of last year, Wilkins said that more than a hundred fish were recorded in three-eighths of a mile of the stream and that the fish ranged in size from four to nine inches. The fish were all well conditioned and their growth rate was considerably faster than was normal for our more mountainous areas. By comparison the two year old fish were as large and well developed as the three year old fish in Tellico.

Recently the reports of trout being taken in Norris Lake are becoming more numerous, and it was pointed out that fishermen could aid greatly in the project by reporting all catches of trout to the local Game and Fish office. To better analyze the results of the stocking program, a post card with the following is needed—number of trout, size where caught and date taken. Mail to the Tennessee Game and Fish Commission, Room 202, State Office Building, Knoxville, Tennessee.

Biggs said that it now contains a good population of wild trout and should afford fishermen a real chance to test their fishing skill with stream reared rainbows.

## 124 Golfers In Maryville Meet

31 Foursomes To Open Season This Saturday

A "full-house" of 31 foursomes have signed to play in the golf tournament for Y-12ers set for Saturday, April 29, at the Green Meadows greens in Maryville. Tee-off time is 7 am and extends until 10. Golfers are urged to be ready 20 minutes before their actual tee-off time.

Linksman are also reminded that they are guests at the Green Meadow course, and that the usual golfing etiquette should be observed. Divots should be replaced, and care should be taken not to mar the greens in any way. Green fee at the Maryville course is \$3.

This is the first golfing tournament of the season, and the turnout was more than anyone expected. Apparent interest in the game is evident as the foursomes were all "a-lather" at sign-up time.

## Tellico Waters Are Seeded With Trout

Tellico River and Citico Creek, the two mainstream watercourses within the Tellico Wildlife Management Area, have been scheduled to receive the bulk of this season's planting of trout for the area, according to Price Wilkins, Supervisor of Coldwater Fisheries for the Game and Fish Commission. Wilkins said that both Tellico River and Citico Creek will be stocked with catchable size trout each week during the season. The decision to concentrate the heavy placement of fish in the two main streams was due in part to the good carry-over of trout in some of the tributary waters and this season's available supply of large stocking fish.

Wilkins stated that to insure a successful season on the area the hatchery installation Pheasant Field reared and conditioned more trout this year than ever before.

## Ridge Golf League Adds 2 Twosomes

The Oak Ridge Golf League for Y-12 was extended last week to include two other pairs, strengthening the Oak Ridgers to 18 teams. This will also extend the season of play through the week of August 18.

Formal play began this week, the first tee-off scheduled for today. Scoring will utilize the match

**THIS BIG SMALLMOUTH** was lured from the water of Norris Lake recently by Elmer Green, Area Five Maintenance. It becomes a strong contender in this game fish division in the Annual Fishing Contest for Y-12ers. The bass took a doll fly lure.

## New Skeet Meet Started Sunday

First of Eight Rounds Begins Skeet Tourney

The Spring session of the All-Carbide Skeet Tournament got underway last Sunday, April 23 at the Sportsmen Association's range, Oak Ridge. This is the first of eight rounds scheduled in the tourney.

Competition will be scheduled for every other Sunday, and is on the basis of individual performance. There are no teams involved. No contestant may shoot more than two rounds at one time for purposes of applying scores towards the tournament. Thus, a shooter must be present at half of the matches.

First, second and third prizes are to be awarded for scratch and handicap scores.

Skeeters interested in getting in on the tournament may still do so by attending the next shoot scheduled for Sunday, May 7. Initial firings are at 1 p.m.

In the final league shoot held Sunday, April 23, the trap broke and there are no conclusive scores. The make-up shoot will be held May 7, weather permitting. All rounds are final after this shoot.

medal system, with six points the highest possible score.

The new duos added to the league are:

Earl Crow-Phil Berman.  
Gentry Underwood - Ernest Early.

6-10249

## Six Teams Sign In Softball Meet

Other Teams Can Register By May 5

Six Slow Pitch Softball teams have already signed to take part in the summer's play for Y-12. Other teams are expected to enter the league before the closing date of Friday, May 5, for team entry.

Practice begins as soon as possible after the closing date, and play will get under way about the third week of May.

Teams wishing to enter the softball league are urged to contact the Y-12 Recreation Department, Room 149, Bldg. 9704-2, or plant telephone 7100 or 7109.

The teams, listed below with managers, building numbers, and shifts, are already entered:

**DEVELOPMENT**—R. A. Huber, Bldg. 9202, Day Shift.

**BUZZARDS**—Joe Ryan, Bldg. 9212, J Shift.

**RED DEVILS**—L. E. Pate, Bldg. 9212, H Shift.

**BLUE DEMONS**—Tony Picca, Bldg. 9212, C Shift.

**TABS**—Jim Moon, Bldg. 9706-1A, Day Shift.

**ATOMS**—Avery Kendig, Bldg. 9720-13, Day Shift.

## Lenoir City Golfers Sign Twelve Teams

The Lenoir City Golf League for Carbidors will tee-off next Monday, May 1. Using the four point match medal system in scoring, each twosome will play each other duet in the league for the eleven-week season. At the end of the regular league play a single elimination tournament will be held. The six winners will play a round robin to determine final winners. They, in turn, will play the league winners for grand champions.

League officers are C. E. "Fuzz" Harris, president; W. C. Collins, vice-president; and E. N. Rogers, secretary. The protest board is W. A. Rutherford, K. E. Kingsbury, and C. J. Beckett.

Teams registered for league play are:

Everitt Rogers-J. C. Thompson  
L. C. Watson-W. C. Collins  
W. R. Hicks-J. P. Cook  
Fred Wray-Mack Wright  
Roscoe Reid-T. L. Gregory  
C. J. Beckett-Herbert Cox  
Clyde Hudson-M. O. Morris  
W. A. Rutherford-Hoyt Huston  
V. A. Miracle-K. E. Kingsbury  
Jim Grubb-B. B. Hopkins  
N. O. Case-Duke Frizzel  
E. E. Kennedy-J. B. Scott

**CHAMPIONS OF THE CLASSIC LEAGUE FOR Y-12 BOWLERS** are the boisterous Bumpers who knocked out the Rippers in the league roll-off recently. From left are E. B. Galloway, Clyde Smith, Elmer Green, Van Williams, R. L. Vanderpool and Capt. Avery Kendig. Top bowlers Jim Whitten and Len Hart were not present when the above photograph was made.

them much after this picture. Russ Hensley entertained a group of friends last week-end on his cabin cruiser which nests on Watts Bar.

One reason you can't take it with you is that it usually gives out before you do.

#### SHIFT SUPERINTENDENTS AND UTILITIES

All the way from Utilities the bird flies in with the word that C. E. Welch is vacationing in Florida... likewise O. F. Jordan (Panama City), where the deep-sea monsters bite... N. M. Standridge "go-cart-raced" over the week-end, P. L. Beeler drag-raced... A. J. Edwards is vacationing in Hot Springs, Ark., fishing and taking hot baths... K. E. Caughron visited his parents recently in Newport... get well quick wishes to C. D. Langley... other parent-visitors were J. D. Tolliver (Williamsburg, Ky.) and J. H. Thomas (Blount County)... J. C. Yarber is fishing this week on vacation, also doing the spring plowing getting ready for the gardening season... E. R. Bailey is looking for a tutor in German... his two-year old grandson is home, and Bailey's having a hard time talking to the youngster... E. B. Cox's uncle died recently and E. B. went up to Indiana for the funeral.

Despite inflation, a penny for most people's thoughts is still a fair price.

#### MECHANICAL OPERATIONS

From the Beta Four Machine Shop's neck of the woods comes word that L. Valentine is overhauling his tractor on vacation... then plans to relax by wetting a few hooks... N. B. Beason went to Alabama... T. T. Patterson and Carl Leach kept their vacation plans a big secret... G. F. Campbell is still recapping from his motorcycle mishap... W. A. Cofer's father is seriously ill in Chattanooga and everyone wishes him well... and from Beta Four comes this thought-filled opus:

At night the arms of Morpheus So readily forsake him.  
His sleeping wife need only sigh Or twitch a toe to wake him.

Yet when he tells me so, I sneer For I can only judge him  
By how he is at 6 ayhem  
When A-bombs wouldn't budge him.

From Special Mechanical Production comes more stork news... John C. Kendrick bears the news that little Kristie put in her appearance at the Oak Ridge Hospital April 15, weight five pounds... E. E. Lamb froliced off to greener pastures for a vacation, but didn't say where... Get well wishes to H. D. Brock, E. J. Coffman, and A. T. Bradford... Sympathy is extended to O. H. Cunningham whose aunt died recently in Mountain Home, Ark... Jack Stewart big cited recently in New York... R. M. Hertzler vacationed

last week loafing around Norris... and L. H. Russell is welcomed back after illness.

It's allowed from Alloy folks that W. E. Forbes and W. A. Wallis are welcomed back after separate illnesses... and J. B. Moss spent his vacation with his wife getting the old garden in shape.

Up from General Machine Shop comes word that many vacationers are wetting hooks this week, among them Fred Pugh, who intends to do a little painting and a lot of fishing... Clyde Hill who won't have to go very far, he lives on the banks of Watts Bar... Deepest sympathy is extended to W. J. Crabtree whose wife was killed in an automobile accident April 20, between Athens and Sweetwater... get well wishes to G. R. Easter, J. C. Mullins, F. T. McNamara, Floyd Ludwig and J. B. McConnell... A. J. Naleppa and J. J. Wells vacationed last week as did W. C. Jones, J. A. Phillips around home in Oliver Springs, H. W. Bowles, who attended a friend's funeral in Alabama... J. D. Meadows is fishing this week with a side trip planned... P. N. Fisher and Al Johnson also vacationed around these parts last week... everybody knows Russell Hopper's vacation plans... FISHING... likewise for F. E. Shipley, Jr. and Gordon Brewer.

Production Control got in on the production line of babies recently and came along with this fine youngster. Ron Taylor's little Catherine Lynn was born April 8, at 7:26 am, in the Oak Ridge Hospital. This is a "first" for the Taylor household,

which accounts for a lot of the picture-showing and bragging in general.

Has anyone figured out yet how Ridgers can vote in the Knoxville referendum coming up? Any ideas or suggestions will be gladly received.

#### Camera Club Plans Photography Class

All Y-12 cameraddicts are being urged to participate in the course in photography to be sponsored by the Carbide Camera Club. The series will consist of six, possibly eight, lectures and demonstrations covering the design of cameras, exposure and development of color as well as black and white film, and printing and enlarging techniques. A Carbide Camera Club membership card is all that is needed.

Persons desiring to enroll in these courses may contact A. A. Palko, plant phone 7586, or at his home phone, Oak Ridge 483-8879. Courses start in a week or so, and immediate contact should be made to get in on the beginning lecture.

#### Y-12ers With 15, 10 Years Company Service

Congratulations to the following Y-12ers who will complete 15 and 10 years of Company Service within the next few days:

##### 15 YEARS

Norman A. O'Neal, Product Processing, April 28.  
James A. McLain, Utilities, May 1.

##### 10 YEARS

Warren D. Foust, Buildings and Grounds, April 27.  
Paul E. Woody, General Machine Shop, April 27.  
Jan V. Bibee, Electrical, April 27.  
Arthur W. Teague, Jr., Z Area, April 27.  
John C. Daniels, Beryllium Fabrication, April 27.  
Robert G. Walker, Jr., Chemical, April 27.  
Jesse F. Marcum, Guard Department, April 27.  
Miles C. Dansby, Janitors, April 27.  
Homer D. Bozeman, Alpha Four Cascade Operations, April 30.  
Edith B. Duckworth, Product Processing, April 30.  
Lucian C. Peters, Special Testing, April 30.  
Carl M. Neff, Production Analysis, April 30.  
Roy B. Dunlap, Salvage, April 30.

Thomas E. McCarroll, Research Services, April 30.  
Alonzo A. Curtis, Machine Maintenance, April 30.  
Marshall B. Dyer, Beta Four Assembly and Forming, April 30.  
Samuel C. Simmons, General Machine Shop, April 30.  
Newman H. Wise, General Machine Shop, April 30.  
John H. Hansard, Guard Department, April 30.  
Samuel L. Gallman, Jr., Production Inspection, April 30.  
Joseph D. Davis, General Machine Shop, April 30.  
Lynn F. Ellis, Guard Department, April 30.  
Louis M. Doney, Ceramics and Plastics Development, April 30.  
James R. Donahue, Product Processing, May 1.  
Roger P. Brotherton, Beta Two, May 1.  
Newman L. Clark, Jr., General Machine Shop, May 1.  
Coyal F. Fuque, Process Maintenance, May 1.  
Robert L. Ludwig, Metallurgical Development, May 1.  
William T. Coward, Research Services, May 2.

#### Rain Dampens D Shift Rodeo

The big D Shift Fishing Rodeo came off without a hitch, Thursday, April 13, despite the hurricane-like weather and "ever so cold" wind. The weather conditions were lousy... fishing about the same, according to all reports.

Several prize winners made off with excellent catches, however, as John Orr, Alpha Four Maintenance, won a reel; A. B. Campbell, Chemical, took a spinning rod; J. F. May, Utilities, a spinning rod; J. G. Harbour, Chemical, fish scales (for weighing, that is); and K. G. Edgmon, Guards, took a thermos bottle. Door prize was won by M. L. Chandler, Alpha Four Maintenance; while Lt. E. M. Hunnicutt, Guards, won the dock prize.

Meanwhile, D Shifters announce the next Rodeo to be held at Andersonville Boat Dock, on Norris Lake, Thursday, May 11. Registration will, of course, be the regular hours of 12:01 a.m. through 5 p.m. Y-12ers may register at the boat dock for door and dock prizes.

"My husband would never chase after another woman," said the lady. "He's too fine, too decent, too old."

DANCE DOOR PRIZES ARE DISPLAYED by Jane Brown, Quality Control. She holds the gold-gilded wall-clock, one of the prizes. Also seen is the barbecue grill with electric rotisserie attached, and the wireless electric shaver. The big dance is scheduled for the Oak Terrace Ballroom, Oak Ridge, for Friday night, May 12.

#### April Poster Contest Deadline Is April 30

##### 'Temperature, Chemical Burns' Is Current Theme

The Safety Department announces that poster contest deadline is Monday, April 30. The current theme of "Prevention of Temperature and Chemical Burns" actually caused the last lost-time accident in the Y-12 Plant. It should be taught easily enough for countless ideas to be developed along these lines, since so much of the type work done is of a chemical nature. High temperatures are dealt with in many occupations here also, and the current theme is most apt.

Any employee in the Y-12 area is eligible to enter the contest, as well as members of his family. Only previous winners in the contest are eligible.

The prizes offered for the April contest are the popular folding aluminum picnic table as first prize, and the second prize is listed as an ice crusher. The winner poster will be used in the July safety campaign in Y-12.

With the increase of lost-time injuries of late in the plant, Y-12ers are being urged to bear down with that little extra effort to make plant work safer and accidents less likely to happen. Since positive action is being stressed to alleviate the increasing injuries, the poster contest assumes interest of even greater proportions.

#### Corning Ware Awards Are Available At North Portal

Y-12ers who have not picked up their Corning Ware safety award may do so again this week, starting today at North Portal, from 2 p.m. until 5 p.m. The delivery windows will be opened again tomorrow afternoon and Friday, April 25 and 26, at the same hours.

This was one of the most popular selections made on the 26th UCNC accident-free period for the 10,307,137 hours completed in 1960 making that year the best year in Y-12's history for safe operations, and a record for most of the country.

#### Big Spring Dance

Continued From Page 1

During the festivities door prizes will be given by drawings to several lucky dancers. Recreation announces that the door prizes will be an electronic shaver for first prize, and a gold-leaf Stryco clock for second prize, while the third prize will be an electric rotisserie grill.

So, Y-12ers are reminded to reserve Friday, May 12, for the spring get-together for the Big Dance at the Oak Terrace. It's a good opportunity for the distaff side of the family to show off that new frock, and a fine opportunity for the other side to relax and enjoy a gala evening.

#### 'Spring Clean-Up'

Continued from Page 1

actor Projects; J. O. Younghans, ORNL's Stable Isotopes; Jon Hamilton, Electronuclear Research from ORNL; R. P. Jernigan, Jr., ORNL's Thermonuclear Experimental Dept; Woodrow Carey, Reactor Chemistry from ORNL; T. L. Boswell, Ceramics from ORNL; and W. C. Tunnell, from ORNL's Neutron Physics Department.

Any Y-12er with "clean-up" problems may contact his divisional coordinator for help with his problems. It is anticipated by all concerned that this effort will make Y-12 a cleaner, more pleasant and safer place to work.

#### Instrument Society Meet Set For Wednesday May 3

The Oak Ridge Section of the Instrument Society of America's general meeting for May will be held next Wednesday, May 3, at 8 p.m., in the Green Room of the Ridge Recreation Hall, Oak Ridge.

DeForest F. Smith, of the Oak Ridge Gaseous Diffusion Plant, will give a review of methods of generating, detecting, and utilizing infrared radiation with emphasis on commercially available equipment and I.R. spectroscopy. He is the author of several publications in the fields of microwave and infrared spectroscopy.

#### TRANSPORT MONOPOLY

Fidel Castro's Cuban government has taken steps to completely centralize and control the nation's transportation system.
